

Specification Checklist

Adapt Workstation

The Adapt Workstation is HOW Group’s certified Australian Made height-adjustable desk designed for modern commercial spaces. The system is highly customisable, also available in fixed-height, and can be custom-built to meet your needs.

Our standard workstation frames are kept in stock and ready for on-site installation in just 4 weeks. If you’re looking for something more unique, our local manufacturing partnerships mean that fully custom options have a lead time maximum of 8 weeks.

Specification Checklist

Adapt Workstation

Keep workstations out of landfill with our 10+10 Warranty. After 10 years, we can come and audit and refurbish your workstations, then add another 10-year warranty. Pair this with our optional FSC Certified tops for a truly sustainable solution.

AFRDI Certified for commercial durability, Adapt features a whisper-quiet motor and anti-collision sensor. Its three-tiered telescopic legs deliver an expansive height range, going significantly lower and higher than standard market competitors.
