

# Easypeasy

# Furniture for the Curious

Easypeasy was born from the idea to create a seating and table system that provides an easy way to offer modularity, colour, playfulness, and sustainability.

**A chair, stool and table range that offers an easy way to incorporate hundreds of colour combinations with fast lead-times. A chair that offers an easy way to scale up sustainability credentials. A stool that offers two heights and an easy way to add or remove the backrest. A table that is transported flat and is easy and fast to assemble on site.**

**Easypeasy celebrates the power of simple design. Behind its friendly & playful name lies a clear idea — making things easy for designers, for installers, and for users to have some fun with their furniture.**

**Its modular system of tables, chairs and stools, offers 15 frame colours and 25 seat and back colours. And because it's so easy to assemble or disassemble, it's easy to change & swap components, to replace parts, reuse, or recycle.**

**Easypeasy proves simplicity can be functional, sustainable, and can offer designers hundreds of colour combinations to bring fun to their projects.**

**It's Easypeasy.**

# Chairs

**01 Easypeasy Chair**  
A tubular steel chair frame with a 12mm moulded Ash veneer plywood seat and backrest.

**02 Plywood Seat + Backrest**  
Available in Ash - Standard / Walnut Stain / Seasonal solid colour with timber grain.

**03 DEFY rHDPE**  
Recycled high-density polyethylene seat + backrest. Made from 95 - 100% post-consumer and post-industrial waste. Available in 8 colours.

**04 Stackable Design**  
Easypeasy chairs and stools are stackable allowing for simple storage and space efficiency.

**05 Custom Colour Combinations**  
Combine seasonal seat and backrest colours with frame options to create harmony or bold contrast.

All painted timber seat + backrests are sandblasted in house prior to painting to reveal the timber grain.

# Stools

# Thinking Circularity — DEFY rHDPE

**In Australia,  
around 30,000 tonnes  
of commercial furniture  
waste is generated  
each year, with an  
estimated 95% ending  
up in landfill.<sup>1</sup>**

**Our rHDPE helps  
change that.**

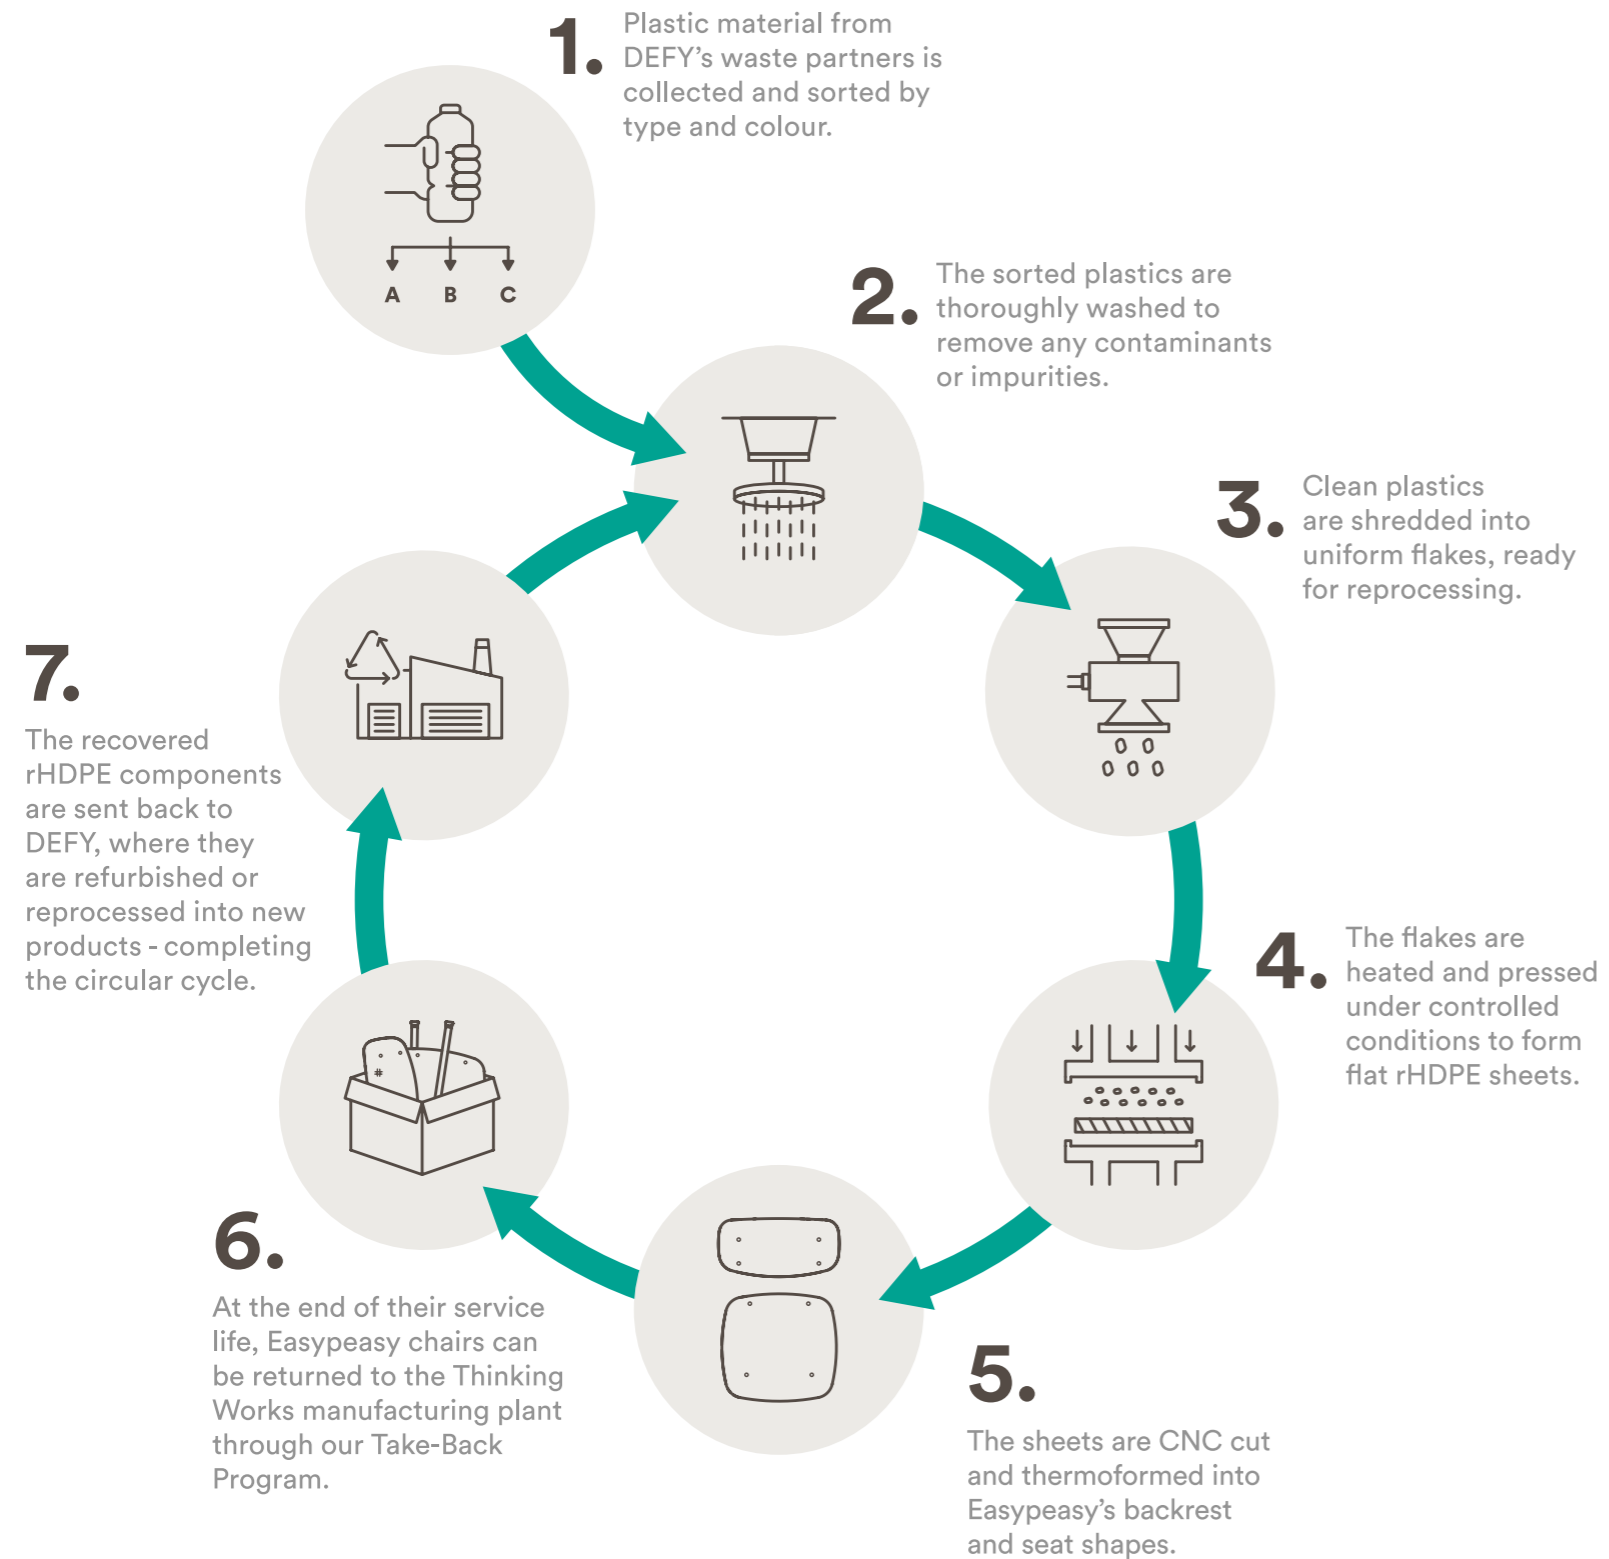

<sup>1</sup> Australian Government Department of Climate Change, Energy, the Environment and Water (DCCEEW), Designing out waste for commercial furniture and furnishings – Furniture 360, Australian Government, Canberra, 2023.

# Thinking Circularity — DEFY rHDPE

Each year, around 30,000 tonnes of commercial furniture waste is generated in Australia, with an estimated 95% ending up in landfill<sup>1</sup>. In partnership with DEFY, we're working to change that. Our rHDPE backrest and seat are made from 95–100% post-consumer and post-industrial plastic waste, giving discarded plastics a new life.

More than just recycled, our rHDPE is refinishable, reusable, and fully recyclable. At the end of its service life, each component can be refurbished or reprocessed into new products, extending its lifespan and keeping valuable resources in circulation.

Through our partnership with DEFY, we're sourcing locally, reducing transport emissions, supporting Australian suppliers, and ensuring our products can be easily returned for refurbishment or recycling through the same supply network - further reducing environmental impact.

# Tables

**01 Easypeasy's playful range** suits a variety of settings. Manufactured on a simple tubular steel frame for a clean, modern look.

**02 4 Star Table**  
The sleek 4 star table base provides a modern style with ample legroom.

**03 2 Leg Table**  
The tubular steel frame shown in black, can be powdercoated in 15 seasonal colours.

**04 Adjustable Glides**  
The glides offer 10mm of adjustment to level the table on uneven floors.

**05 Straight Centre Leg**  
A straight central leg adds stability and support for larger extended Easypeasy tables.

# Chair Finishes

Easypeasy features a robust tubular steel frame paired with a seat and backrest available in either FSC<sup>1</sup> certified timber or rHDPE<sup>2</sup> sourced from DEFY. Both finish options are designed to complement or contrast the steel framework and are available in a selection of seasonal finishes.

## 1. Frame Finishes

Featuring tubular steel frame finished in our seasonal powder-coated colours.

## 2. Timber Seat + Backrest Finishes

FSC Certified timber backrest and seat available in Ash Veneered Plywood, Walnut Stain, or painted in seasonal finishes with exposed timber grain. Finishes can be selected to complement or contrast the steel frame.

## 2. rHDPE Seat + Backrest Finishes

DEFY rHDPE backrest and seat is made from 95 - 100% post-consumer and post-industrial recycled plastic waste, and available in eight custom colour options.

<sup>1</sup> FSC = Foreest Stewardship Council  
<sup>2</sup> rHDPE = recycled high-density polyethylene

Colours are representative only, please check with your Thinking Works Consultant to view samples of any specific colour. Please note that pricing will vary based on your selected finish.
