ADAPT
Workstation System

HOW.

The way we work is
constantly evolving.

More and more,
we are collaborating,
connecting and exploring
new possibilities.

The more work changes,
the more we need to Adapt...

Adapt is HOW Group's own Australian made and designed cutting edge sit-to-stand workstation. Almost every feature is able to be customised. Seamlessly transitioning between sitting and standing, Adapt encourages movement and well-being while catering for both individual and collaborative work. With almost every feature able to be customised, Adapt fits perfectly into your workspace.

The three-tiered telescopic legs hosts a swift and quiet motor with an anti-collision sensor, so you don't bother those around you when switching to stand-up work. Available as both a straight or 120 degrees workstation. Single, Double, Quad, or 6 desk arrangements.

HOW.

Adapt Workstations
Seamlessly transitioning between sitting and standing at the touch of a button.

Utilising an ergonomic, electric height adjustability in an ergonomic form, Adapt fosters employee health and wellbeing by making movement in the workplace easy and accessible.

With almost every feature easily customisable, and a host of accessories, choose your Adapt configuration to suit your workplace needs.

From rectilinear back-to-back, to a 120° three-way cluster or 90° workstation setup; workspaces, private offices, collaborative spaces and meeting areas can be adaptively transformed.

Lead Time
8-10 Weeks

Warranty
Made to last, 10 year warranty

Materials & Finishes
Steel Legs
MDF or Solid Wood Tabletop
Acoustic Material Workstation Screen
All finishes of legs, tabletops, and accessories are able to be customised.

HOW.

Adapt's range of accessories includes sit/stand controller options, smart-office technology, monitor arms and task chairs – tailor the workstation to your specific needs, with a range of leg profiles, colours and finishes curated by the HOW Group design team.

The Flo Monitor Arm by CBS offers smooth, dynamic movement and fingertip adjustability for optimal screen positioning.

Humanscale's ergonomic monitor arms and mounts clear up clutter on the workspace to improve comfort, health, and productivity.

Autex Acoustic Desk Screens provides both physical and acoustic shelter; a sanctuary for focused, independent work.

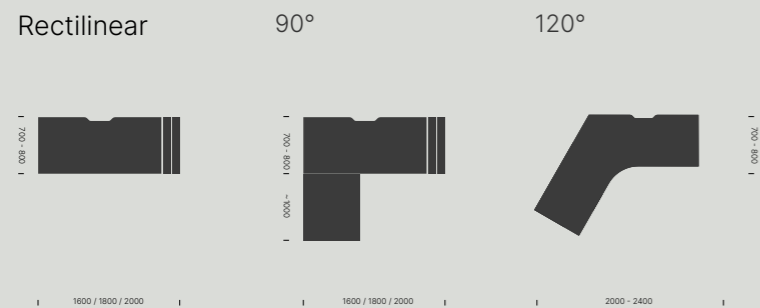

Humanscale M/Connect 3 is a centralised hub for connecting data and power to laptops and handheld devices.

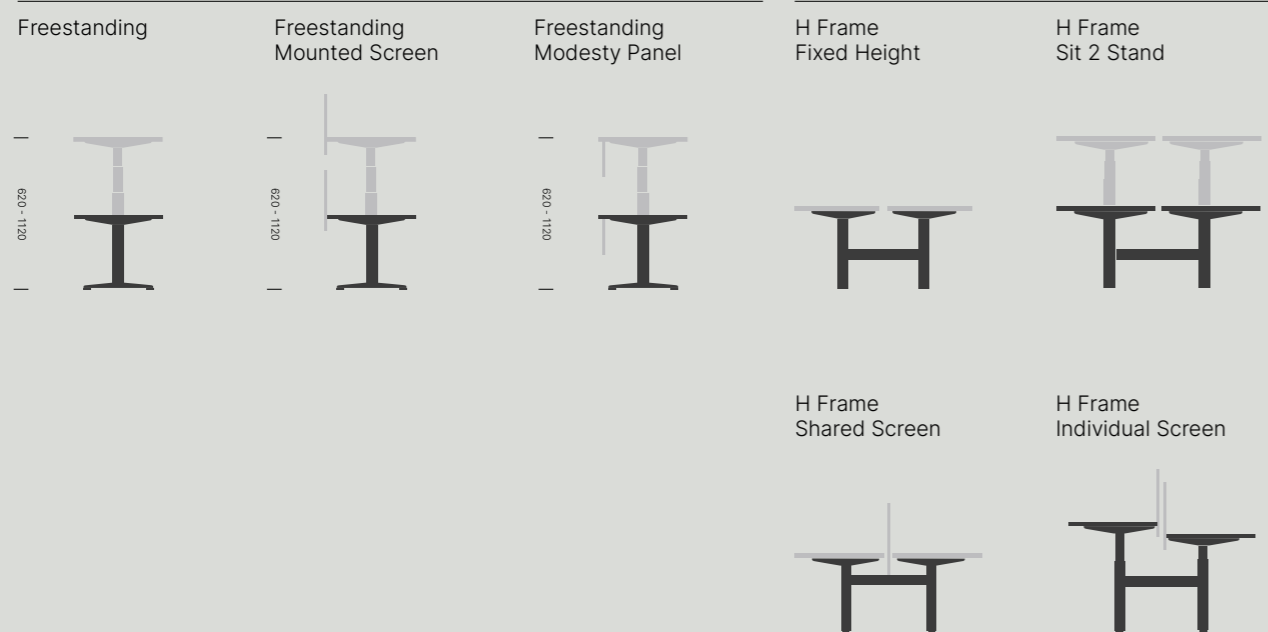

HOW's Dynamic task chair is our most popular ergonomic office chair.

HOW.

HOW.

By providing your team with the tools they need to work efficiently and collaboratively, you are setting them up for success. Facilitating a culture of agility and connectivity HOW's quality power and data management solutions are functional, dependable and define the modern workspace.

Power & Data Cable Management

NeatTech by Humanscale
NeatTech is an innovative cable management solution that is compatible with fixed and height adjustable workstations. Its lightweight basket stores power strips and cables neatly and safely off the floor.

A lightweight mesh basket to store power strips and cables, NeatTech features unique Velcro ties to secure wayward cables and offers easy access once installed. NeatTech can support a total weight of 4.5kg and comes with a 15-year warranty.

Wire Grid Cable Basket
Manage your wiring under desk with a highly functional and cost effective Wire Grid cable basket.

The single tier basket can connect to power coming from the wall or ceiling. The Wire Grid cable management basket is available in Black or White.
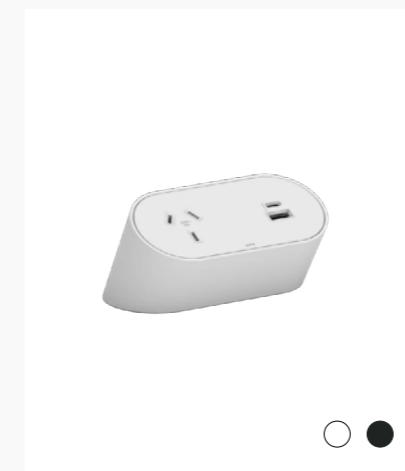

Typical power and data is easily managed above or below the desk and includes a range of power rails, soft wiring in-desks modules and below desk trays and shoots. Cables can enter trays from power poles, umbilicals, wall or floor connections, talk to our team about the right cable management solution.
