About us

Howgroup is a Commercial Furniture Designer & Manufacturer, working collaboratively with Architects, Interior Designers to create efficient inspiring spaces. We support the Australian Design & Manufacturing Industries, providing Sustainable Furniture with Quality and Ethically sourced materials.

Howgroup is more than a furniture supplier, our team listen to our clients' vision and translate their ideas into beautiful custom designed furniture, functional and comfortable by offering tailored innovative solutions to suit a multitude of commercial environments. From floor to ceiling and wall to wall, our product range offers endless options for transforming any space, we are here to support you as the needs of the project space evolve.

Howgroup specialises in providing solutions across Workplace, Education, Government, Hospitality and Aged Care sectors and delivers projects Australia-wide.

Culture

Howgroup was established by Paul Howard (Director) and Faith Sun (General Manager). With over 50 years' industry experience between them, beginning with Ian Howard establishing in 1946 Aristoc Industries, Featherston Interiors & CoDesign. By combining a genuine passion for industrial design and a wealth of knowledge in furniture manufacturing and project delivery space, we have become a modern version of a solid model of principles long established, continually adapting to the challenges of the world today.

Knowledge

Our long-standing relationships with international industry-leading brand partners such as Fantoni, Actiu, Sinetica, Kastel, Markant & HumanScale, together with our own local Australian manufacturing production, enable us to support the evolution of industrial design working closely with Australian & international designers.

Howgroup's in house industrial design team, interpret and create products to support the designer's vision. With extensive industry partnerships, we have the capacity to provide complete space solutions; from front of house to the back office & collaboration spaces. We provide clear and transparent pricing and are more than happy to assist with images, presentations and other marketing materials to help our clients get their projects over the line.
