Torii
Japanese inspired
workstation

Explore the Entrance of the Sacred

Just as the torii connects the ordinary world with the divine,
TORII.E is the bridge between individuals and their teams.

Incorporating Japanese minimalistic aesthetics into the design,
it is more than the epitome of architecture,
but an extension of space

TORII story

E+ combines the Japanese torii with the ancient Chinese mortise and tenon construction technique to create a more durable and robust workstation.

* The latter—a technique found mostly in woodworks—involves a flexible framework where the major components, such as columns, beams and purlins, are connected together with mortises (holes) and tenons (tongues).

...

Efficient office

requires a good office experience,
with a unique design and structure
to enhance the new journey.

Team makes efficiency

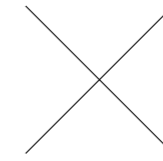

Collaboration helps boom creativity

The Mortise and Tenon Construction Technique from Ancient China

A combination of rigidity and flexibility,
tested and refined over time

Japanese Torii Architecture

Minimalism: turning complexity
into simple elegance and pure beauty

Best selection - group of 4 workstation

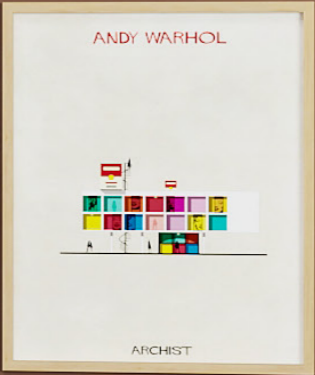

...

The four-person workstation, successfully combines multiple space functions, providing an attractive, practical, and creative working environment. It also responds to the dynamic changes in the office structure and easily adapt to evolving working requirements and technological changes.

Flexible space configuration

The Y-shape desktop provides a variety of configurations, providing enough space for use while encouraging faster communication among employees.

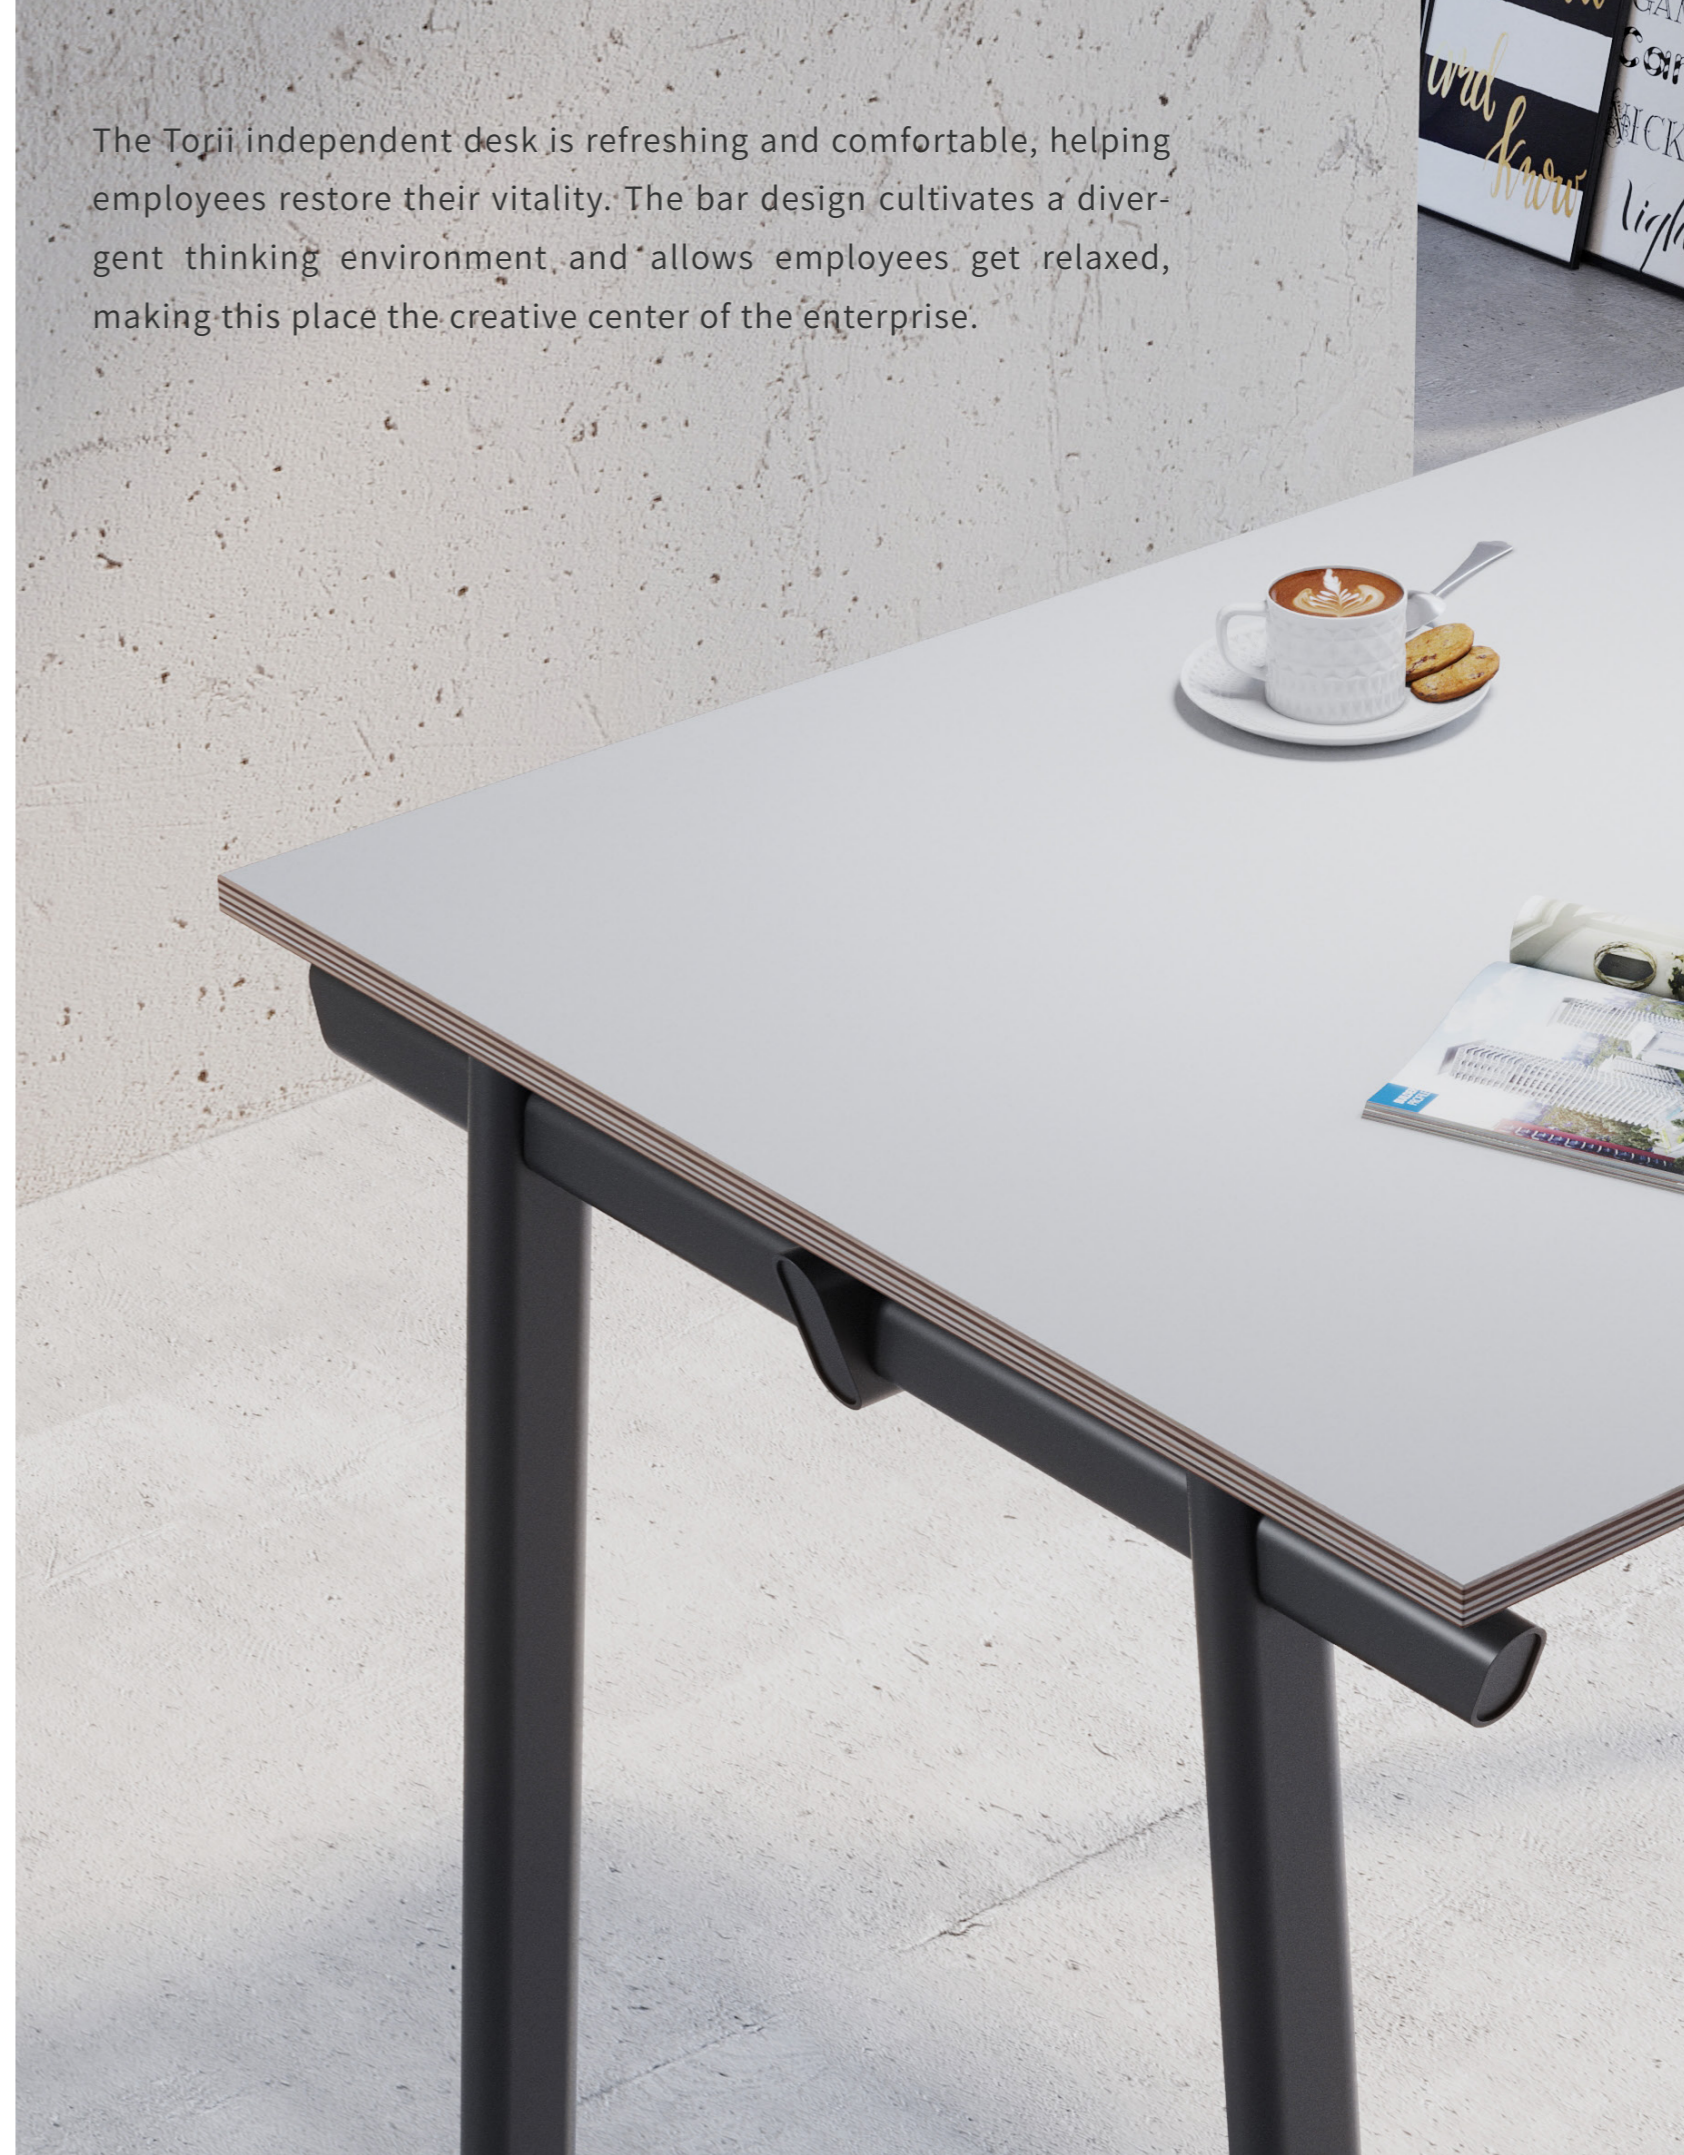

The Torii workstation can be equipped with various functional components, such as privacy front panels and sound-absorbing screens to protect employee physical and mental health and increasing company productivity.

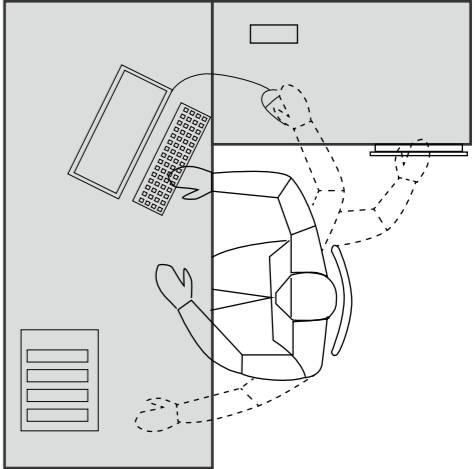

The Torii independent desk is refreshing and comfortable, helping employees restore their vitality. The bar design cultivates a divergent thinking environment and allows employees get relaxed, making this place the creative center of the enterprise.

Board Room

Torii provides different configurations to optimize office space layout and maximize its utility, perfectly balancing the premium and creativity.

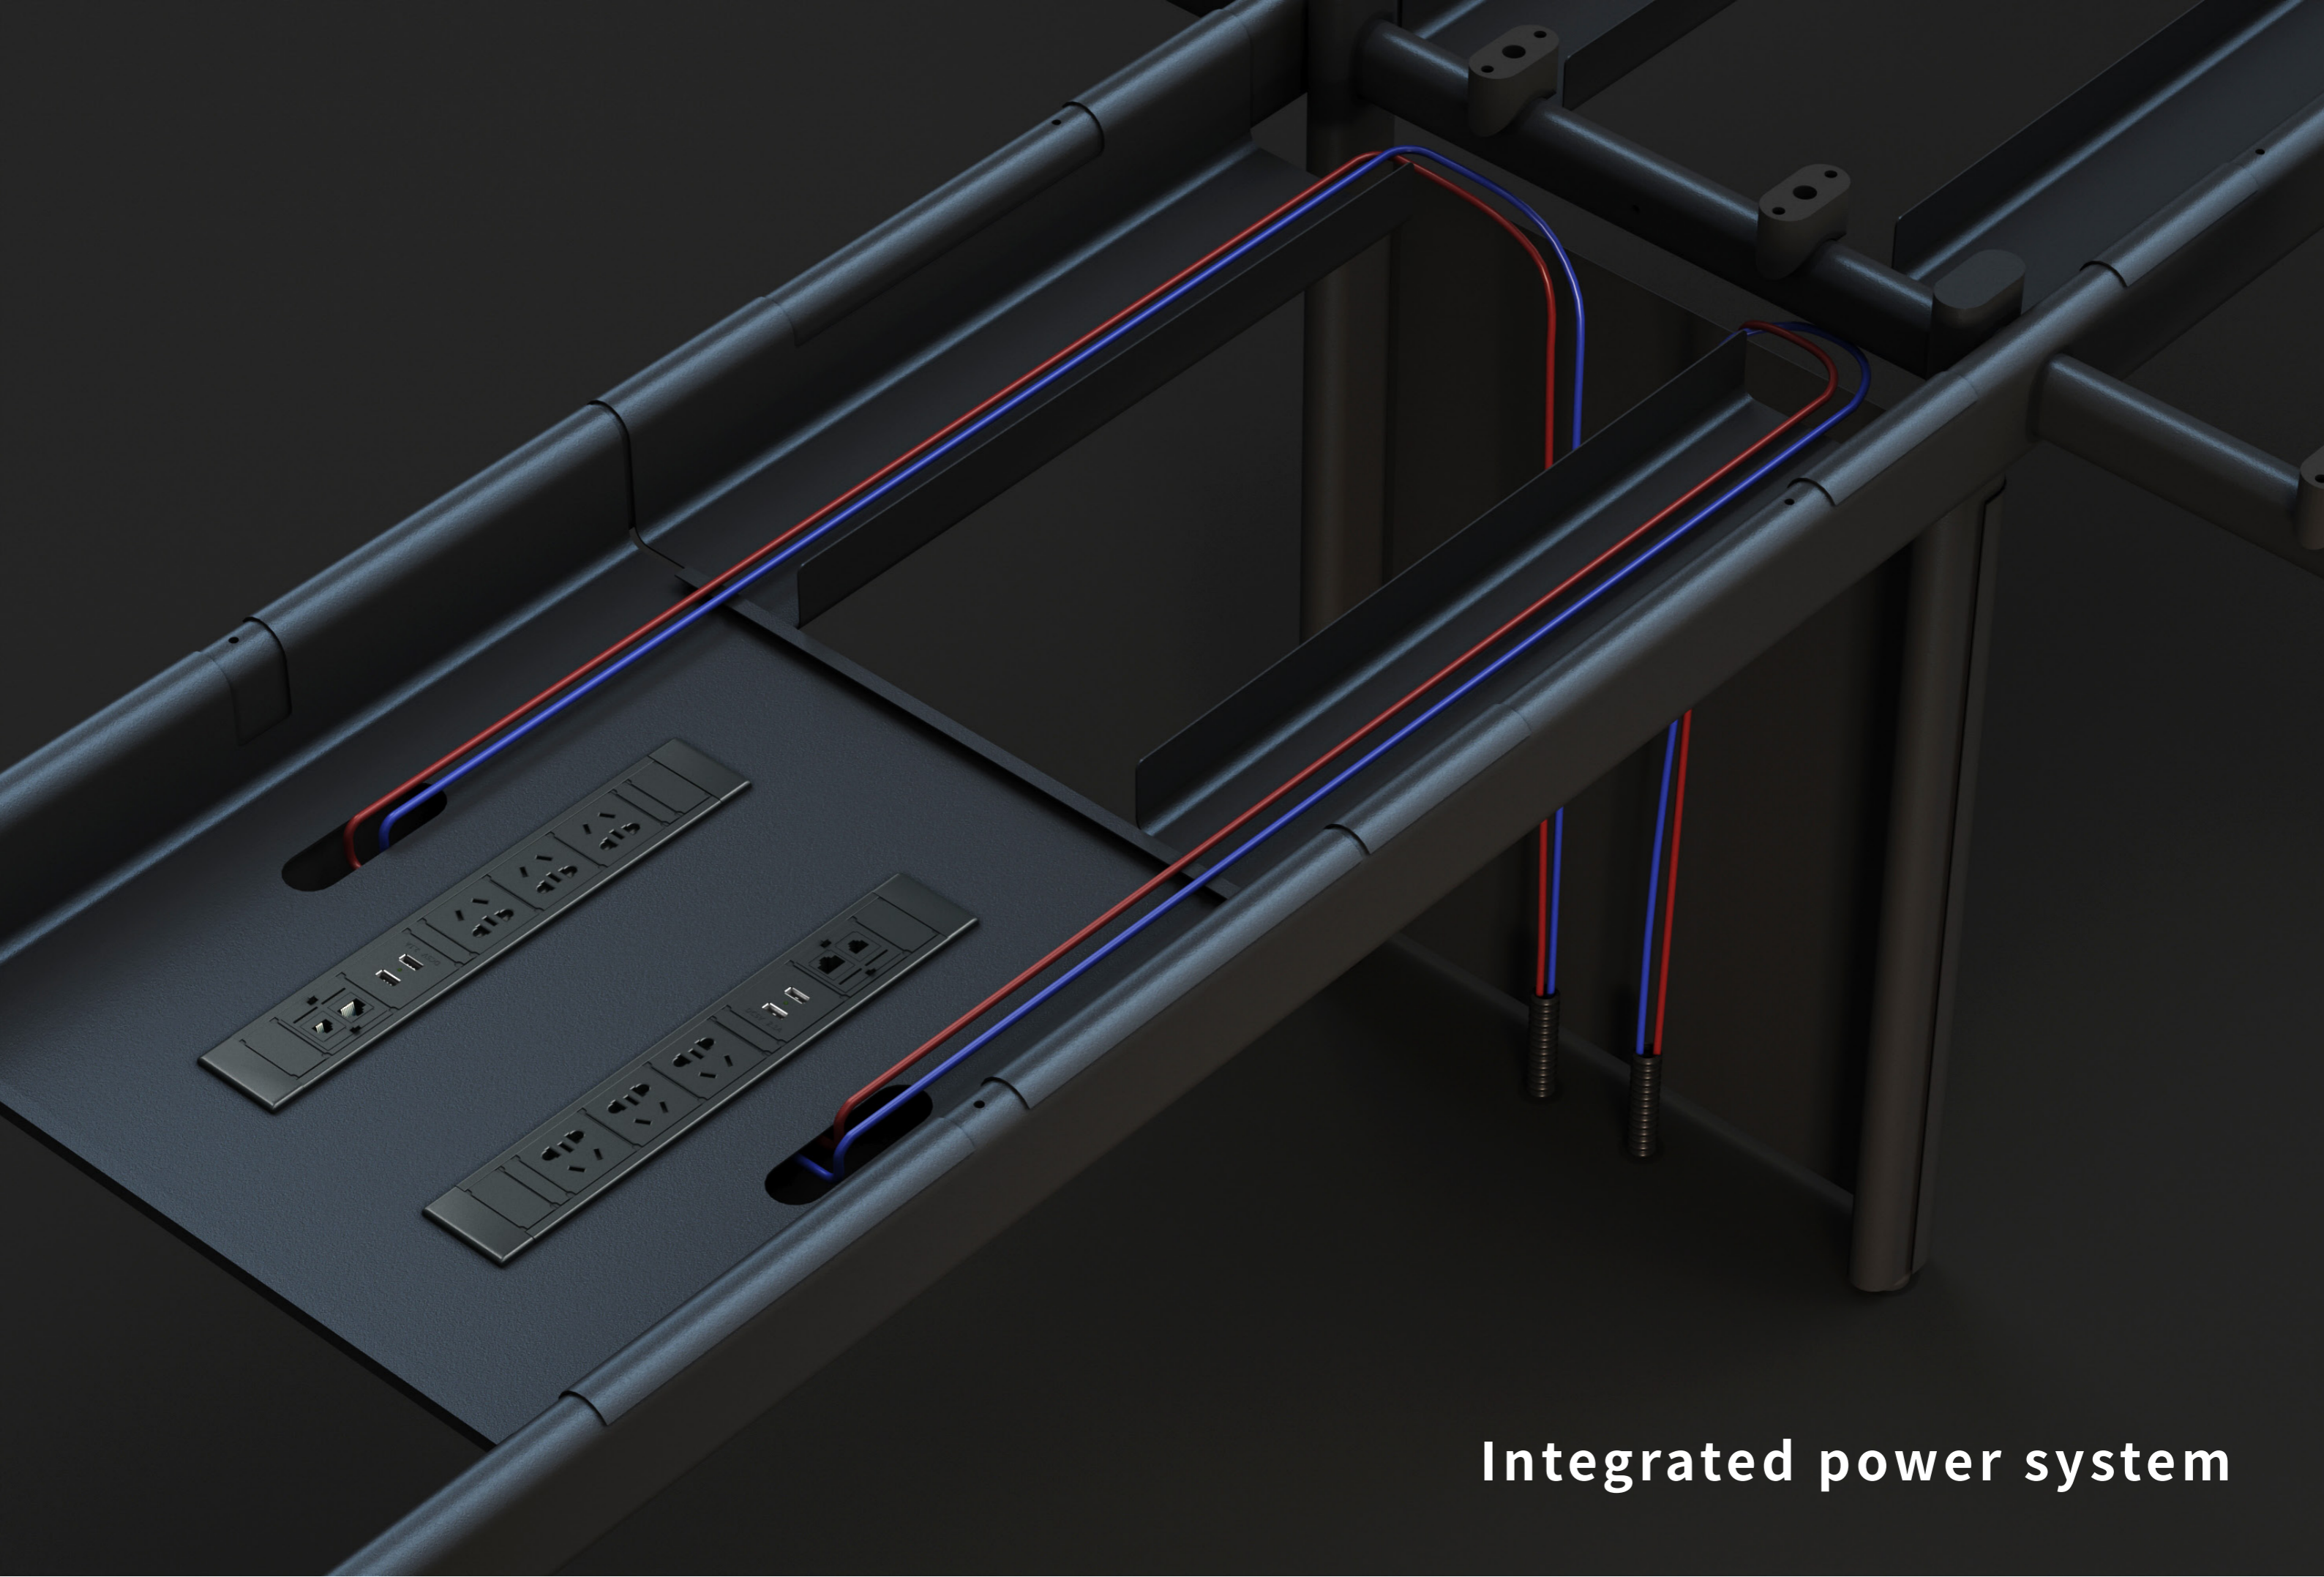

The excellent structure design of ARC provides strong stability and adaptability, alongside with hidden cable management and multi-functional electric-power rail, ensuring the clean and tidy of the desktop. Various sizes are available for all types of meeting rooms.
